

INSIGNA INNOVATION HUB

Pitch your ideas in the field of intelligent signal analysis and assistance systems and get started!

Info about
the Pitch 2024
will be available
soon on our
website!

Elevator Pitch

With funding from the Free State of Thuringia, the iHUB invites founding teams and young start-ups to network with Thuringian research expertise in the field of sensor technology and signal analysis. Together, we want to take important steps towards technology and product development.

Realization of market-oriented prototypes and demonstrators and the creation of feasibility studies

The winners of the competition have the opportunity to develop their submitted ideas in collaboration with researchers from the Thuringian High-Performance Center InSignA „Intelligent Signal Analysis and Assistance Systems“ for a fixed period of time. Further information on the criteria and submission documents can be found on our website.
